

## STAINLESS STEEL REAR VISION MIRROR

The 320x225mm Rectangular Stainless Steel mirror has a galvanized steel back and hood for enhanced durability. The stainless steel face is virtually unbreakable which makes this mirror ideal in situations where projectile objects, such as rocks and gravel, are a problem. The galvanised steel clamp bracket is designed for pole mounting, however a wall mounting adaptor is included to attach the mirror to a flat surface.

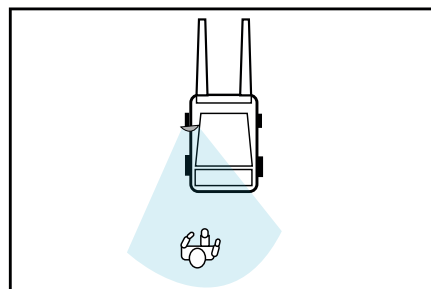

### SPECIFICATIONS:

PART NO.	SIZE	* VIEW DISTANCE	MIRROR FACE	BACK	BRACKET	MOUNTING HOLES
16336C	320x225mm	Up to 10m	.7mm Stainless Steel	Stainless Steel	160mm	3 x 5mm

\* View Distance is the combined distance from the observer to the mirror PLUS the distance from the mirror to the area being viewed.
