

HEAVY DUTY MIRROR J-BRACKET

INSTALLATION INSTRUCTIONS:

- Decide the appropriate place to site the mirror to give maximum vision.
- Fix J-Bracket to a wall, ceiling or pillar using suitable fixing hardware (ie: screws, bolts). Allowing enough room to get the mirror on to the J-Bracket.
- Remove Adaptor from J-Bracket and thread into the back of the mirror.
- Make sure the ventilation hole is at the lowest point for drainage (acrylic mirror only).
- Peel protective film off around the immediate edge of the mirror (acrylic mirror only).
- Slide the adaptor and mirror over the J-Bracket and adjust mirror to the desired position.
- Tighten the locking bolt on the adaptor securely.
- Totally remove the protective film from the mirror face (acrylic mirror only).

HEAVY DUTY MIRROR - WITH STRAPPING

STEEL STRAPPING FOR EXTRA LARGE POLE:

DuraVision™ Heavy Duty Mirrors can be fixed to an extra large pole such as lamp posts, power poles and street lights using steel strapping. Place 2 - 3 straps around the pole and across the J-Bracket's mounting plate and tighten.

Purchase steel strapping from hardware stores or road sign companies.
